# PROJECT OF THE MONTH | Swiss Re Bengaluru [IN]

# 01 20

<b>PROJECT</b>	Swiss Re Bengaluru [IN]
<b>COMPLETION</b>	August 2018
<b>ARCHITECTS</b>	DSP Design Associates Pvt. Ltd.
<b>PRODUCTS</b>	Design Ceiling <b>LOOP® TYP 2</b> 2 mm thick aluminium, module size 966 x 1115 mm, powder-coated in silver [1420 m <sup>2</sup> ]

Successful worldwide: For almost 20 years, Swiss Re has been represented in the Indian city of Bengaluru. With more than 1,000 employees, this is the third largest office of the Swiss reinsurance company, as well as one of its three global Business Solutions Centers. As part of its renovation project, a visually appealing ceiling solution was sourced from durlum.

Openness and transparency are cornerstones of this group of companies founded back in 1863. These values are also reflected in the interior and ceiling design of its subsidiary in Bengaluru.

For its employees and customers, this insurance company has created stylish encounter areas in its spacious and extensive foyer and leisure area. Highlighted by LOOP®, an apparently seamless metal ceiling, the different areas such as reception, cafeteria and seating corners invite people to spend an unhurried moment and to exchange views.

Characterised by its round apertures, this design ceiling skilfully blends into its interior setting. In harmony with the interior decor and the numerous wooden elements, this creates an atmosphere that is modern and very agreeable at one and the same time.

A successful renovation in which an upward glance is rewarding.
