

## Lighting cassette C625

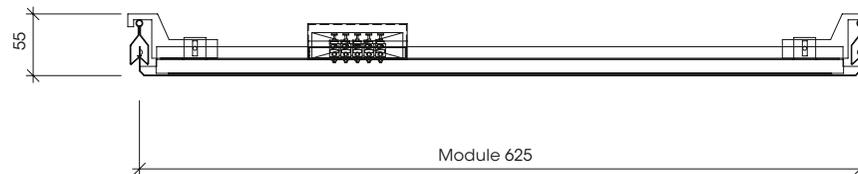

# Lighting cassette C625

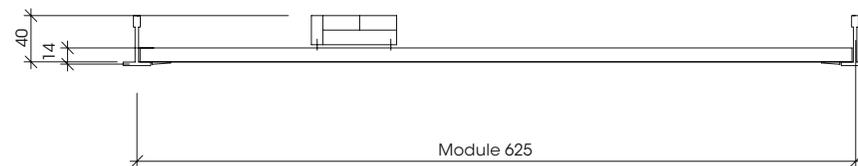

## LIGHTING CASSETTE ILLUMINATES WORKING AREAS PERFECTLY

The C625 lighting cassette integrates perfectly in the cassette ceilings from durlum. Flush with the ceiling elements, their timeless design is visually compelling. Equipped with the very latest LED technology, these surface-mounted luminaires are highly efficient. The microprismatic cover on each luminaire eliminates glare, making them ideally suited for use beside PC-based workplaces or office premises. The lighting cassettes are available in two variants: as durlum clip-in or flush-mounted systems.

Clip-in system S1

Lay-in system S3
